

One-Piece Traffic Island

Traffic Islands · 1000 × 1000 mm

The DI-1000 is Rosehill's most compact one-piece traffic island. The D-profile island is moulded as a single solid rubber unit, fixing directly to the existing carriageway without excavation for pedestrian protection, chicanes and junction channelisation on tighter layouts. Underside channels carry surface water and cabling, and the universal base plate accepts the majority of keep-left signs.

SPECIFICATION

Product code	DI-1000
Plan dimensions	1000 × 1000 mm
Height	125 mm
Weight	150 kg
Supplied as	One piece
