

One-Piece Traffic Island

Traffic Islands · 1200 × 1200 mm

The DI-1200 is a one-piece moulded rubber traffic island offering a fast, fit-and-forget alternative to constructed and modular islands. Supplied as a single solid unit, it fixes directly to the existing carriageway without excavation and flexes to harsh cambers. Underside channels carry surface water and cabling to the keep-left sign, and the universal base plate fits the majority of signs on the market.

SPECIFICATION

Product code	DI-1200
Plan dimensions	1200 × 1200 mm
Height	125 mm
