

Lane Separator – Single Curve

Lane Separators · 1500 × 495 mm

The Single Curve unit has one curved kerb end and one square butt end, closing off the end of a continuous run of separators. Two Single Curve units can also be installed back-to-back to form a 3000 mm stand-alone separator. It shares the same 1500 × 495 × 130 mm footprint as the other unit types and combines with them for continuous, intermittent or curved configurations.

SPECIFICATION

Product code	LS Single Curve
Plan dimensions	1500 × 495 mm
Height	130 mm
Weight	95–105 kg
Supplied as	One piece
