

Narrow Cycle Lane Defender

Narrow Cycle Lane Defenders · 2000 × 235 mm

The full-size Narrow Cycle Lane Defender provides robust physical separation between vehicles and cyclists on existing streets. The 2 m solid rubber unit anchors to the carriageway with resin-set M12 fixings, connects end-to-end for continuous or intermittent protection, follows gentle curves, and absorbs vehicle impact without fracturing. Three unit types cover any run configuration — two-slope (NCLD/2), single-slope (NCLD/1) and no-slope extension (NCLD/0) — in black or grey, each with cats eyes and an M24 boss for sign or bollard mounting.

SPECIFICATION

Product code	NCLD
Plan dimensions	2000 × 235 mm
Height	130 mm
Weight	53–60 kg by unit type
Supplied as	One piece
Installation	Typical run in hours
Material	100% recycled tyre crumb rubber (solid, UV stable)
