

Pedestrian Refuge Island

Pedestrian Refuges · 1000 × 1000 mm per island unit

The RI-1000 pedestrian refuge combines two DI-1000 one-piece island units with a surface-mounted tactile paving crossing area, forming a protected midpoint 4000 mm long overall. The complete refuge installs in half a day with no excavation, and accepts an optional cable-less solar-powered beacon.

SPECIFICATION

Product code	RI-1000
Plan dimensions	1000 × 1000 mm per island unit
Refuge assembly	1000 × 4000 mm overall
