

Modular Speed Calmer

Speed Calmers · 1750 × 1490 mm per module

The SC1 Speed Calmer module has a longer, less aggressive profile than a speed bump — a 650 mm approach ramp, 580 mm flat top and 260 mm exit ramp (1490 mm overall) that reduces vehicle jolt while achieving effective speed reduction. Centre modules combine with handed SC1 L and SC1 R end units to span any carriageway in 1750 mm increments (e.g. 3 × SC1 = 5250 mm). Surface-fixed on concrete, asphalt or block paving.

SPECIFICATION

Product code	SC1
Plan dimensions	1750 × 1490 mm per module
Height	75 mm
Weight	Contact for module weight
Supplied as	Modular
Installation	Under 30 minutes per run
Material	100% recycled tyre crumb rubber (solid, pre-moulded)
Colours	Black or red (other colours to order)
Fixing	Surface-fixed, installation kit included
Surfaces	Concrete, asphalt or block paving (subject to evaluation)
Tolerance	±1.5%

OPTIONS & ACCESSORIES

- High-visibility directional arrow markings
- Handed left/right end modules (SC1 L / SC1 R)
- Cut-to-size modules for non-standard carriageway widths

Handed end modules: SC1 L / SC1 R

Rapid installation

Under 30 minutes per run — surface-mounted with no excavation or wet trades.

Solid recycled rubber

Pre-moulded from 100% recycled tyre rubber; flexes to harsh cambers.

Fit and forget

Fixing kit supplied. Compatible with standard signage and street furniture.
